The **Quicksmart BladeFlask EVO** can accommodate even more types of scalpel handles and blades including large autopsy scalpels, thick and round handles, even hexagonal shaped versions - giving you greater freedom in using any scalpel you want. It is so simple to use with just one hand. Embrace safety with the new standard in scalpel blade removals.

Quicksmart blade removers have safely removed over 70 million contaminated scalpel blades, preventing up to 150,000 injuries around the world.

With little to no training required, Quicksmart's single handed blade removers are proven to reliably reduce the risk of scalpel blade injuries.

It's simple to use with a quick "place, push, click, and pull" action. This easy-to-use solution also provides a lower cost alternative to safety scalpels or single-use disposable scalpels.

### Specification

Blade Capacity	100 Blades
Compatible Blades & Handles	All commercially available scalpel blades including (but not limited to) up to size PM 60A, PM60B, PM70. All commercially available scalpel handles including (but not limited to) PM6, PM8.
Size (per unit)	9cm x 13.4cm x 11.3cm
Weight (per unit)	250g
Accessories	Mounting Bracket - holds the BladeFlask EVO in place to allow single-handed blade removal.
Reusable	Multi-use: Each unit removes 100 scalpel blades before shut off
